Proposal: Removal of existing prefabricated panels and replace with concrete block with render finish and render over stone cladding and erection of side porch

Location: Dovedale, Park Road, Crediton

Applicant: Mr G Paradise

It was **resolved** to recommend approval. (Proposed by Cllr Harris).

Reference: 20/01814/HOUSE

Proposal: Erection of double garage and garden shed, excavation of front of site to provide gravel bin storage area with retaining wall and terracing of garden including retaining wall

Location: Fair Havens, Mill Street, CREDITON

Applicant: Mr Chris Reed

It was **resolved** to recommend refusal because this application, which is retrospective (being in large part already completed) prevents the landscaping conditions of the previous application which was granted.

The sloping garden area towards Mill Street, which has now been flattened, was to have been grassed with a specimen tree such as a Holm Oak planted in the area to add a green feature to the street scene and to help screen the development behind. This area, large enough to park at least two cars, is now roughly hard-core surfaced and does nothing to improve either the street scene or biodiversity as a grassed area and tree would have done. The applicant states it is needed for bin storage but as there is adequate space at the top of the drive, there is no need for unsightly storage so prominently positioned in the street, nor is such a large area required for this purpose.

Further to emails from residents to MDDC, it is evident that the extent of the development impedes access to the neighbouring property for larger vehicles, including emergency vehicles, and would entirely prevent access by fire appliances.-This factor should be considered in determining the suitability of the development. (Proposed by Cllr Brookes-Hocking, Cllr Letch abstained from voting).

It was **resolved** to note that Mid Devon District Council, the determining Authority, has APPROVED the following applications with conditions as filed. (Proposed by Cllr Harris).

Proposal: Replacement of ground floor windows and doors on West and South elevations
