## **Persistent or Vexatious Complaints Policy**

## 1. Introduction

- 1.1 This policy is about the management of abusive, persistent, frivolous and/or vexatious complainants. It sets out how Crediton Town Council (CTC) will deal with complainants that fall within the scope of this definition. Those identified will be treated consistently, honestly and proportionately while ensuring that other service users, officers and CTC suffer no detriment.
- 1.2 It is considered that all complainants have the right to have their concerns examined in line with the relevant complaints procedure. In most cases, dealing with complaints will be a straightforward process. However, in a minority of cases the complainant may act in a manner that is deemed unacceptable.
- 1.3 They may act in a way that is considered abusive, unreasonably persistent or vexatious and by doing so it may hinder the Council's ability to investigate their complaint or the complaints of others. This behaviour may occur at any time before, during or after a complaint has been investigated.
- 1.4 The time spent on dealing with all complaints should be proportionate to the nature of the complaint and consistent with the outcome that is being sought being realistic and achievable.
- 1.5 The term complaint in this policy includes requests made under the Freedom of Information Act 2000 and the Data Protection Act 1998 and reference to the Complaints Procedure is, where relevant, to be interpreted as meaning a request under those Acts.
- 1.6 The aim of this policy is to contribute to the overall aim of dealing with all complainants in ways which are demonstrably consistent, fair and reasonable.
- 1.7 This policy is not exhaustive and does not cover all forms of behaviour that may be considered unreasonable.

## 2. How is unreasonable complaint behaviour defined?

- 2.1 For the purpose of this policy the following definitions of persistent or vexatious complainants will be used:
- 2.2 It should be noted that raising a complaint about a service provided by CTC does not in itself constitute unreasonably persistent behaviour and neither do complainants who escalate through all stages of the relevant complaints procedure or those who express criticism about the complaints process itself.
- 2.3 Examples of unreasonably persistent behaviour:
  - Refusing to specify the grounds of a complaint, despite offers of help
  - Refusing to cooperate with the complaints investigation process
  - Refusing to accept that certain issues are not within the scope of the Council's jurisdiction or within the scope of a complaints procedure
  - Insisting on the complaint being dealt with in ways which are incompatible with the adopted complaints procedure or with good practice
  - Making unjustified complaints about officers who are trying to deal with the issues, and seeking to have them replaced
  - Changing the basis of the complaint as the investigation proceeds

- Denying or changing statements made at an earlier stage
- Introducing trivial or irrelevant new information at a later stage
- Raising many detailed but unimportant questions, and insisting they are all answered
- Submitting falsified documents from themselves or others
- Adopting a 'scatter gun' approach: pursuing parallel complaints on the same issue with various officers and/or organisations
- Making excessive demands on the time and resources of officers with lengthy phone calls, numerous emails to one or many council officers, or detailed letters every few days, and expecting immediate responses
- persistently approaching CTC through different routes or other persons about the same issue
- persist in seeking an outcome which CTC has explained is unrealistic for legal or policy (or other valid) reasons
- Submitting repeat complaints with minor additions/variations, which the complainant insists make these 'new' complaints
- Refusing to accept the decision; repeatedly arguing points with no new evidence.

## (this list is not exhaustive, nor does one single characteristic on its own imply that the person will be considered as being in this category)

Furthermore, CTC will take steps to protect its elected members and officers from members of the public who are behaving in a way which is considered abusive and/or vexatious. This may include physical or verbal abuse and could include the following:

- Speaking to elected members and officers in a derogatory manner which causes offence
- Swearing, either verbally or in writing despite being asked to refrain from using such language
- Using threatening language towards elected members and officers which provokes fear
- Repeatedly contacting elected members and officers regarding the same matter which has already been addressed.

## (this list is not exhaustive)

## 3. Managing unreasonable complainant behaviour

- 3.1 This policy may be invoked if CTC considers that a complainant has behaved in a manner which is deemed unreasonable (see above). The Council may take any actions against a complainant that it considers to be reasonable and proportionate in the circumstances.
- 3.2 Types of actions CTC may take:
  - Where the complainant tries to reopen an issue that has already been considered through one of CTC's complaints procedures, they will be informed in writing that the procedure has been exhausted and that the matter is now closed
  - Where a decision on the complaint has been made, the complainant should be informed that future correspondence will be read and placed on file, but not acknowledged, unless it contains important new information
  - Limiting the complainant to one type of contact (for example telephone, letter, email, etc.)
  - Placing limits on the number and duration of contacts with officers per week or month

- Requiring contact to take place with a named officer or two council members and informing the complainant that if they do not keep to these arrangements, any further correspondence that does not highlight any significantly new matters will not necessarily be acknowledged and responded to, but will be kept on file
- Assigning one officer or two council members to read the complainant's correspondence, in order to ensure appropriate action is taken
- Offering a restricted time slot for necessary calls to specified dates and times
- Requiring any face-to-face contacts to take place in the presence of a witness and in a suitable location.

## 4. Ceasing Contact with a Complainant

- 4.1 There may be occasions where the relationship between CTC and unreasonably persistent or vexatious complainants breaks down completely. This may even be the case while complaints are under investigation and there is little prospect of achieving a satisfactory outcome.
- 4.2 Should a decision be made to cease contact with a complainant, the steps in section 6 will be used.

## 5. Matters to consider before acting

- 5.1 Before taking a decision to invoke this policy consideration should be given to whether any further action is necessary, such as:
  - Consideration about whether it is appropriate to convene a meeting with the complainant and the Town Clerk to seek a mutually agreeable resolution
  - If it is known or suspected that the complainant has any type of disability, then consider how CTC may support them in being assisted to support their communication (for example, invite them to a meeting where they bring a family member/ friend/support worker)
  - Where more than one organisation is being contacted by the complainant, attempt to agree a cross organisational approach; and designate a lead officer to co-ordinate responses.
- 5.2 Officers must be satisfied before taking any action as defined by this policy that the complainant's individual circumstances have been considered including such issues as age, disability, gender, race and religion or belief.

## 6. Imposing restrictions

- 6.1 In the first instance the Town Clerk, in consultation with the Mayor and Chair of HR, will communicate to the complainant either by phone or in writing to explain why this behaviour is causing concern, and ask them to change this behaviour. The Town Clerk will explain what actions CTC may take if the behaviour does not change.
- 6.2 If the complainant continues with the unreasonable behaviour the Town Clerk will consult with the HR Committee about whether it is necessary to take appropriate action by invoking this policy.
- 6.3 When the decision has been taken to apply this policy to a complainant, the Town Clerk will contact the complainant in writing (and/or as appropriate) to explain:
  - why this decision has been taken
  - what action the Council will be taking
  - the duration of that action
  - the review process of this policy.

- 6.4 Any restriction that is imposed on the complainant's contact with the Council will be appropriate and proportionate and the complainant will be advised of the period of time the restriction will be in place for. In most cases restrictions will apply for between three and six months but in exceptional cases may be extended. In such cases the restrictions would be reviewed on a quarterly basis.
- 6.5 If the complainant continues to behave in a way which is deemed unacceptable then the Town Clerk, in consultation with the HR Committee, may decide to refuse all contact with the complainant and cease any investigation into his or her complaint.
- 6.6 Where the behaviour is so extreme or it threatens the immediate safety and welfare of officers, the Council will consider other options, for example reporting the matter to the Police or taking legal action. In such cases, we may not give the complainant prior warning of that action.

## 7. New complaints from those who have been treated as persistent/vexatious

7.1 Any new complaints received from complainants who have come under this policy will be treated on their merits. CTC does not support a blanket ban on genuine complaints simply because restrictions may be imposed upon that complainant.

## 8. Review

- 8.1 The Town Clerk, in consultation with the Mayor and Chair of HR will review any restrictions which are imposed upon the complainant after three months and at the end of every subsequent three months within the period during which the policy is to apply.
- 8.2 Should the decision be taken to extend the period of restriction, the complainant will be advised in writing how CTC plans to go about this and that the decision to restrict contact will be put in place for a further specified period (for example six months). The outcome of any subsequent review will be communicated to the complainant, outlining if the restrictions will continue to apply and if so why.
- 8.3 If at the end of the restricted period it is considered that the complainant's behaviour is no longer deemed to be unreasonable, the Council will confirm this in writing advising that the restrictions have now been lifted.

## 9. Record Keeping

9.1 CTC will keep a record of all complainants who have been treated as being unreasonably abusive, persistent, frivolous and/or vexatious in accordance with this policy. This will include details of why the policy was invoked, what restrictions were imposed and for what period of time.

## **Document Retention Policy**

The purpose of this document is to provide a corporate policy framework to ensure that particular documents (or sets of documents) are dealt with in the correct manner; being retained and/or disposed of in the correct method and timescale.

This policy gives Crediton Town Council (CTC) a system for the management of paper and electronic records. The Town Clerk is responsible for ensuring CTC documents are managed accordingly.

This policy is based on the National Association of Local Council's Legal Topic Note on Local Council Documents and Records, therefore legal requirements and recommended practice within the sector.

Where the policy refers to 'documents' this includes both paper and electronic copies.

## Introduction

There is a clear need for CTC to retain documentation for audit purposes, staff management, tax liabilities, and the eventuality of legal disputes and legal proceedings. (Please also see 'Retention of documents for legal purposes' below.) Many documents are now only held electronically so the same arrangements for keeping records and copies will be applied to an electronic document as for a paper document.

Appendix One indicates the appropriate minimum retention periods for the most important documents for audit and other reasons.

Subject to these reasons for retaining documents, papers and records may be destroyed if they are no longer of use or relevant. If in doubt, document(s) will be retained until proper advice has been received.

## **Retention of documents for legal purposes**

Most legal proceedings are governed by the Limitation Act 1980 (as amended). The 1980 Act provides that legal claims may not be commenced after a specified period. The specified period varies, depending on the type of claim in question. The table below sets out the limitation periods for the different categories of claim. The reference to 'category' in the table refers to claims brought in respect of that category.

Category	Limitation Period
Negligence (and other 'Torts')	6 years
Defamation	1 year
Contract	6 years
Leases	12 years
Sums recoverable by statute	6 years

Personal Injury	3 years
To Recover Land	12 years
Rent	6 years
Breach of Trust None	None

Where the limitation periods above are longer than other periods specified in policy, the documentation should be kept for the longer period specified. Some types of legal proceedings may fall within two or more categories. Rent arrears, for example, could fall within the following three categories (depending on the circumstances):

- contract (6 years) because all tenancies and leases are contracts;
- leases (12 years) if the arrears are due under a lease; and
- rent (6 years) if the arrears are due under a tenancy (and not a lease).

In these circumstances, the National Association of Local Councils (NALC) advises that the relevant documentation should be kept for the longest of the three limitation periods.

The same principles apply in the case of debts. If the debt arises under a simple contract the limitation period will be six years but if the debt arises under a lease the limitation period will be 12 years (unless it relates to rent in which case the limitation period will be six years). A final complication relates to sums due under leases which are 'reserved as rent'. Sometimes, for example, service charges are expressed to be payable as 'additional rent'. The limitation period for service charges in those circumstances will be six years – even though the sums are due under a lease.

As there is no limitation period in respect of trusts, councils are advised that they should never destroy trust deeds and schemes and other similar documentation.

It should also be noted that some limitation periods can be extended. Examples include:

- where individuals do not become aware of damage until a later date (e.g. in the case of disease)
- where damage is hidden (e.g. to a building)
- where a person is a child or suffers from a mental incapacity
- where there has been a mistake by both parties
- where one party has defrauded another or concealed facts.

## Pulse Hubs Report

Report by:	Town Clerk
То:	Full Council
Date:	For consideration on 15 July 2025

## Recommendation

To review the questions raised by a member of the public and responses from Pulse Hubs, to progress the initiative to planning stage.

## 1. Purpose

- 1.1 This report provides information on questions raised by a member of the public regarding Pulse Hubs and responses.
- 1.2 Should CTC be satisfied with the responses, it is proposed that a vote is taken to progress the project to planning stage.

## 2. Background

2.1 The Town Clerk was contacted by the Community Engagement Lead for Pulse Hubs regarding installations in Crediton, following approval from Tiverton Town Council for 12 units.

2.2 On 19 November 2025 (minute no. 2024/073), it was resolved that the Town Clerk should continue investigation.

2.3 Pulse Hubs are now in a position to move to the planning stage for 6 hubs (Appendix A).

2.3 Following a number of questions raised by a member of the public, the Town Clerk sought responses from Pulse Hubs (Appendix B).

## 3. Proposals

3.1 To consider and approve that Pulse Hubs move to planning application for the siting of 6 hubs (Appendix A).

## 4. Financial Implications

4.1 it remains that there is no cost of installation as advertising ensures all functions and operations come at no cost to the user or taxpayer.

## 5. <u>Climate Implications</u>

5.1 Pulse Hubs run on electricity, but investigation is going into solar panels.

5.2 Pulse is working towards becoming a B Corporation. This is a for-profit corporation certified for its social impact. To be granted and to maintain certification, companies must receive a minimum score of 80 from an assessment of its social and environmental performance.

## 6. Conclusion

6.1 CTC remained committed to the increase in community participation and information sharing. A Pulse Hub could provide improved engagement.

## 1. Surveillance and Cameras

Each unit contains three cameras. Only one is currently active—intended for emergency calls or defibrillator use. However, the other two, located above the advertising screens, are "inactive" (as stated on page 2 of the privacy notice). Their presence raises concerns: Why are they there? What future role might they serve? And crucially, could they be switched on without council consent or public awareness?

The cameras above the screens were intended as footfall counting solution. We worked alongside a footfall counting organisation called 'Springboard' to provide this. This solution didn't work as cameras needed to be much higher. The cameras above the screen will be removed for the units that are installed. Only one camera will remain which only records in the event the emergency button is pressed. This video content is stored locally on the hub for 2 weeks for evidentiary purposes should the Police require it. It is then deleted.

Our new footfall solution is a Bluetooth based sensor that counts mobile phones as they pass by a unit. The sensor is built inside the unit.

## 2. Data Collection

When users connect to the free Wi-Fi, data such as IP address, browser type, device type, and usage behaviour is collected. While not uncommon, the documentation does not clarify whether this data is anonymised, or whether it is shared or sold to third-party marketers or advertisers.

None of our data is shared with external organisations or monetised. We comply with all relevant GDPR and data regulations.

We cannot see what people are browsing when using our wifi however we do have systems in place to block people from accessing nefarious content. It is not an open wifi such as McDonalds.

## 3. Call Monitoring

Call details, including history, duration, and dialled numbers, are logged. Although stated as being for service provision and preventing misuse, there is no indication whether this data is ever monetised or shared.

No call data is shared or monetised. Our log is simply intended to identify multiple calls to the same number in order to block misuse. Blacklisted numbers remain permanently logged on the system whilst remaining call data is erased.

## 4. Pulse Hubs enhance local mobile phone reception by integrating small cell technology

I think this means mobile network operators' traffic could be routed through these hubs, improving reception and service to users in the vicinity of a hub, even users who don't use the hub. While this sounds great, the privacy policy does not explicitly state whether they monetize, access or collect data transmitted through the small cells themselves. Typically, mobile network operators manage and secure the data transmitted over their networks, and third-party infrastructure providers like Pulse Smart Hub \*should\* not have access to this data, but this needs clarification.

The hubs include the capacity to hold small cells in the future to support mobile network operators in rolling out 4g and 5g. Small cells are essentially mini antennas enabling the mobile network operators to enhance their network. Where 4g and 5g is being rolled out Operators are currently attaching these small cells to lampposts and buildings.

Should we house small cells in the future, we will be paid by the operators to do this. However we will simply provide them with placement and power and will have no access to any of their data.

## 5. Data Sharing and International Transfers

The privacy policy states that personal data may be shared with third parties and transferred outside the UK/EEA, including to the USA. There's no detail on which companies or for what specific purposes.

The policy refers to standard international data transfers for essential services such as cloud hosting, web-based technology, or analytics, with appropriate protections in place. This is part of the day-to-day running of the company's services.

6. Transparency and Accountability

The privacy policy states users will be notified of changes (e.g., activating the two inactive cameras), but gives no details on how this will happen. Cllrs would like this clearly defined? We would be happy to agree a memorandum of understanding specific to Crediton to give Councillors greater reassurance on how we would notify you of any future changes in the technology of the hubs.

7. Advertising

The nature of the adverts to be displayed is not made clear. I know that 5% of screen time is reserved for use by the council or local groups, but what about the other 95%? Is the content monitored? Is it local, national, or algorithmically driven, based on user data collected from the hubs locally? For community-led projects such as Pulse to be commercially successful we rely on those advertisers who are active in the marketplace at any given time. As I explained on the call, we have a great relationship with our advertising partners but do not have the sole autonomy to dictate what they can and can't advertise.

Nevertheless, we pride ourselves in that we work closely with the biggest and most respected out of home organisations. In Belfast that's working with Global Media. These organisations must adhere to a stringent set of rules for their content. The Advertising Standards Authority (ASA) is the UK's independent advertising regulator. And the ASA makes sure advertisements across UK media stick to the advertising rules (the Advertising Codes).

The adverts are national campaigns – the likes of which you will already see on bus stops, buses, trains etc. The likes of jewellery brands, music, clothing, electronics etc. There won't be any political adverts.

Finally, our media partner also currently provides artwork compliance details to every advertiser via our artwork specification). This strictly adheres to the guidelines set out by ASA. And for certain advertiser categories, there are additional protocols in place e.g. not scheduling alcohol content prior to 12noon and following HFSS legislation (High in Fat, Salt or Sugar) that restricts the promotion and placement of certain foods and drink products in proximity to certain public places or buildings (e.g. schools).

8. Air Quality and "Sensor Data"

Pulse Hubs policies don't say what happens to this data. Is it collected? Shared? Sold? Can the council access it for its own planning and environmental health purposes? This data is collected and made publicly available free of charge to anyone who wants it.

9. Screen Hours

Crediton street lighting is typically turned off between midnight and 6am, can or will the advertising screens on the Pulse Hubs also be switched off during this time? Ideally, if their installation goes ahead, their other functions (e.g., calls, wifi, defibrillator access) would remain available. The main screens are switched off between midnight and 0600. The interactive touchscreen stays available 24 hours a day due to emergency features.

## **Crediton Signs Report**

Report by:	Deputy Clerk
То:	Full Council
Date:	For consideration on 15 July 2025

## Recommendation

Full Council is recommended to consider the quotations received to replace the four Crediton signs.

## 1. Purpose

1.1 This report sets out a quotation from Devon County Council's (DCC) sign contractors to supply and install new Crediton signs.

## 2. Background

- 2.1. Four Crediton signs were removed earlier in the year and assumed stolen.
- 2.2. DCC can replace the signs with rectangular signs, with the text "CREDITON" only. These would be free of charge.
- 2.3. The quotation received from DCC's sign contractor is to replace the signs with like for like. Photos of previous signs are shown in Appendix 1. The quote includes CREDITON as the top line with the additional information to follow (Sign 3 is slightly different).
- 2.4. The remaining sign on Higher Road includes St Boniface 680 755 which deviates from the four missing signs that read 680 754. Further information on St Boniface's death is included in Appendix Two.

## 3. Proposals

- 3.1 Option 1: Replace the signs with rectangular signs, with CREDITON only.
- 3.2 Option 2: Replace the signs with like for like design (as per Appendix 1) with consideration given to the St Boniface dates that will be used.

## 4. Financial Implications

- 4.1. There is £2,773 in the General Small Works budget for 2025-26.
- 4.2. Option 1: No financial implications.
- 4.3. Option 2: £900 to supply and erect 4 signs including materials and labour (total price)

## 5. Conclusion

5.1. These signs mark the entrance to the town and with the floral displays beneath two of them they create a prominent display to visitors, with the inclusion of Crediton history.

Sign 1: A377 (QE Drive)

Sign 2: A3072

Sign 3: A377 (Tesco Roundabout)

EnglishDeutschFrancaisNederlands754AD Boniface, aged almost 80, continued to pursue his elusive goal<br/>of converting the Frisians and set off on his final perilous mission,<br/>unarmed, with only a small band of followers. Whilst making camp<br/>near Dokkum in northern Friesland on 5th June, they were slaughtered<br/>by marauders. Boniface died a martyr's death, holding aloft the holy<br/>gospel, as his sole protection.

Source: The Boniface Heritage Trail, crediton.gov.uk (Literature produced by Crediton Town Team)

Boniface's death (and birth) has given rise to a number of noteworthy celebrations. The dates for some of these celebrations have undergone some changes: in 1805, 1855, and 1905 (and in England in 1955) anniversaries were calculated with Boniface's death dated in 755, according to the "Mainz tradition"; in Mainz, Michael Tangl's dating of the martyrdom in 754 was not accepted until after 1955. Celebrations in Germany centered on Fulda and Mainz, in the Netherlands on Dokkum and Utrecht, and in England on Crediton and Exeter.

## Source: Wikipedia

Thus, I believe that the dispute about the year of death of Boniface is settled, having proven the Mainz tradition to be isolated and untenable. Whoever prefers it over the Fulda tradition must deny all opposing annalistic evidence, overturn the dating of the Fulda documents
