2025

22.1 / YOUTH ACTIVITIES CURRENTLY TAKING PLACE IN THE HUB AND OFF SITE

2025

Various aspects of youth work currently taking place and planned activities were discussed. The cookery club, funded by a joint initiative led by Involve, was highlighted as a successful programme with 13 young people participating, exceeding the initial target of 10. The club, led by a cookery teacher, has been well-received, and there is potential for extending the programme.

Youth Council activities were also discussed, including the delay in starting due to DBS checks for staff. Despite the delay, plans for an away day during half-term were confirmed, along with ongoing communications and recruitment efforts.

The D&D group and the girls' group were mentioned as continuing successfully, with adjustments made to manage participant numbers and behaviour.

24 / PART II

2025

25 / YOUTH STAFFING

2025

A verbal update was provided on staffing changes and safeguarding responsibilities. Several team members have taken on new roles, including administrative support, youth council involvement, school outreach, and volunteering. Despite logistical challenges during a location transition, staff have shown flexibility and commitment. Concerns were raised about the delegation of safeguarding duties. It was proposed that strategic oversight remain with senior staff, while day-to-day incidents be managed by others. Specific incidents highlighted the need for improved training and clearer procedures.

26 / INTERNAL SAFEGUARDING ARRANGEMENTS

2025

An in-depth discussion was held regarding internal safeguarding practices. Concerns were raised about staff members' children participating in youth activities, highlighting the need for clear policies to prevent conflicts of interest and ensure professional boundaries. Risk assessments and consistent communication were emphasised as key to maintaining safety.

Safeguarding responsibilities are being strategically distributed. Senior staff will retain oversight, while trained team members manage day-to-day incidents. Recent events underscored the need for improved training and procedural clarity.

Plans are underway to digitise safeguarding systems, with monthly reviews to monitor recurring issues. Key staff will attend advanced safeguarding training to strengthen strategic capabilities. The importance of practical experience and ongoing learning was reiterated.

Training costs were reviewed, with affordable options for basic levels and higher costs for strategic training. A team-wide understanding of safeguarding roles is being developed, with responsibilities shared to reduce pressure on senior staff.

The effectiveness of these arrangements will be reviewed in March 2026 to assess progress and make necessary adjustments.
